

*Engagement is everything!*

## Design & Delivery for Learning

During these two days you learn to design lessons that **amplify students' connections with new content and deepen their thinking** by enhancing generation and articulation of thought. You'll apply **effective presentation and facilitation skills** to maximize the impact of your lessons, and the requisite skills to provide meaningful feedback.

Through the QL Teaching Cycle you will acquire the understanding and skills to:

- maximize learning
- increase memory formation
- extend students' application their learning
