

Ready to take your effectiveness to the next level?

Excellence in Teaching Quantum Learning Essentials

This engaging and inspiring Quantum Learning experience provides research, foundational theories, proven strategies, and innovative techniques that make up the Quantum Learning System of dynamic teaching and learning.

You will learn and experience strategies proven to:

- More effectively facilitate learning to achieve Common Core State Standards
- Create an engaging classroom atmosphere
- Involve students in inquiry, analysis, discussion, and peer collaboration
- Decrease classroom behavior issues and increase time on task
- Create purposeful, meaningful movement in the classroom
