

Create your **BEST** year yet!

Do you ...

- ... want students who are eager and willing to learn?
- ... desire to capture and hold all students' attention?
- ... wish students' could remember what they learn—all the time?
- ... desire every lesson, every day to impact students' lives and bring you more joy?

Did you answer “yes” to any of the above questions? If so, these five days is worth your time. Five days?! Yes, five **informative, practical, valuable, inspiring** days with colleagues who want what you want—to be the most **effective** they can be so that their students learn at high levels.

WHAT YOU'LL GET

- “Game-changing” strategies that boost student achievement and your effectiveness.
- The neuroscience of learning in ways that you'll actually understand.
- Strategies to avoid the “when-the-bum-is-numb-the-brain-is-dumb” syndrom.
- Make life-long colleagues and friends as you build team each day.
- Solutions for your engagement issues.
- Actionable, proven ideas that boost your ability to communicate clearly, use classtime efficiently and create lessons that stick.

Inspired & Invigorated!

Quantum Learning workshops create interactive, effective professional learning environments offered for teachers to build higher levels of confidence with presenting instructional content, to create a strong classroom culture, to build positive relationships with students, and to increase students' ability to perform well across all subjects.
