## What You'll Gain

### Neuroscience "Hacks"

Discover how to help students take ownership of their own attention and memory.

### Design Better Experiences

Shift from assigning simple "activities" to creating deep, anchoring learning experiences.

### Practical UDL Strategies

Learn how to honor student strengths and expand access using flexible goals and materials.

### Joy & Playfulness

Practice specific moves to make learning fun again without sacrificing rigorous objectives.

### Community & Connection

Network with like-minded educators and enjoy a complimentary lunch on us.
